

## INTRODUCTION

The students who begin their professional career as electrical installers, assemblers or electrical maintenance technicians require a hands-on learning with equipments that reflect faithfully the electrical installations in which they will work in the future. Currently, the internet connection or between equipments is necessary and that is extended in domestic and industrial installations so that the labour market requires qualified installers with knowledge in this discipline.

ISO 9001: Quality Management (for Design, Manufacturing, Commercialization and After-sales service)

European Union Certificate (total safety)

Certificates ISO 14001 and ECO-Management and Audit Scheme (environmental management)

Certificate and Worlddidac Member

## GENERAL DESCRIPTION

The Practices in Installations and Wiring of Network Systems, "AEL-WTNT", has been designed by EDIBON for the formation at professional-practical level in the field of the installations, wiring and testing of the technology employed in the network connection.

This training system provides the future professionals with knowledge and essential skills on the assembly, installation and wiring of connections based on the RJ45 ethernet technology. This system offers different kits to provide experience in the installation of ethernet technology, wiring of male and female connection and the implementation and maintenance of small and medium networks.

To acquire a complete knowledge, the system includes a specific manual in which is explained, at theoretical-practical level, the aspects concerning to the installation procedures and wiring of these installations.

This vocational training system includes a series of kits according to the educational requirements:

- FP-KIT-5. Measuring Kit.
- FP-KIT-56. Network Wiring Kit.
- FP-KIT-57. Wall Installation Kit.
- SHCM. Self Healing Cutting Mat.
- WMPP. Wall-Mount Patch Panel.
- MED65. Digital Multimeter.
- CHER. Tool Box.
- PAP. Perforated Aluminum Panel.

Optional learning software:

In addition, EDIBON provides optional software (AEL-WTNT/ICAI) to reinforce knowledge about this field. This software is formed by:

- ECM-SOF. EDIBON Classroom Manager (Instructor Software).
- ESL-SOF. EDIBON Student Labsoft (Student Software).

- **FP-KIT-5. Measuring Kit.**

Clamp Meter:

Clamp for alternating/direct current measurements contactless.

The clamp can measure:

Current.

Voltage.

Resistance.

Voltage and continuity tester:

Voltage range: 12 - 690 VAC.

Phases rotating detection in three-phase systems.

Polarity tester.

- **FP-KIT-56. Network Wiring Kit.**

100 meters of data wire:

Unshielded Twisted Pair wire (UTP).

Category: 5e.

Pins: 8.

Punchdown tool:

Tool for a simple placement of the wires in the terminal blocks.

Category of suitable wire: 5e, 6.

Data cable stripper:

Wire diameter: 3-11 mm.

Category of suitable wire: 4, 5, 5e, 6, 7.

Completely closed knife blade for total security.

Data wire crimp tool:

Cut and peeled of UTP wire.

Suitable connectors:

6-poles type RJ11/12.

8-poles type RJ45.

Data wire tester:

RJ45 male connector.

Suitable to detect:

Open circuits.

Short-circuits.

RJ45 male connectors.

RJ45 female connectors.

- **FP-KIT-57. Wall Installation Kit.**

Wall assembly box.

Push-on frame.

Connector cover.

Trim.

- **SHCM. Self Healing Cutting Mat.**

Help to preserve the work surface and the life of knife blades.

Dimensions:

Height: 200 mm.

Width: 300 mm.

Thickness: 3 mm.

- **WMPP. Wall-Mount Patch Panel.**

It allows to quickly change the port assignment of any equip connected to the network.

Port types: RJ45.

Number of ports: 12.

Wire type: UTP wire.

Wire category: 5e.

- **MED65. Digital Multimeter.**

Digital multimeter of about 3 ½ digits, with double-jack ending cables of about 4 mm to facilitate interconnections.

With this digital multimeter we will be able to measure:

Voltage.

Current.

Resistance.

Capacitors capacity.

Temperature.

- **CHER. Tool Box.**

It contains the following tools:

Allen key.

Cross-head screwdriver.

Flat-head screwdriver.

Rubber hammer.

Insulation tape.

Soldering iron.

Tin.

Heat shrink.

Cable stripper.

Crimper.

Voltage Tester.

Meter.

- **PAP. Perforated Aluminum Panel.**

Perforated aluminum sheet panel.

Approximate size: (Width x High) 1200 x 800 mm.

It is mounted in a structure to be placed in a workbench.

- **All necessary cables to realize the practical exercises are included.**

Cables and Accessories, for normal operation.

Manuals: This unit is supplied with the following manuals: Required Services, Assembly and Installation, Starting-up, Safety, Maintenance & Practices Manuals.

## EXERCISES AND PRACTICAL POSSIBILITIES

- 1.- Implementation of a RJ45 male wire with T-568A termination.
- 2.- Implementation of a RJ45 male wire with T-568B termination.
- 3.- Testing of the RJ45 wire.
- 4.- Wiring and installations of a rosette box for data connection.
- 5.- Commissioning and maintenance of a network of tow to fifty personal computers.
- 6.- Study of several network schemes.
- Several other exercises can be done and designed by the user.

### REQUIRED SERVICES

- Electrical supply: three-phase, 380 V/50 Hz or 208 V/60 Hz, 20 Kw.

### DIMENSIONS AND WEIGHTS

AEL-WTNT:

-Dimensions: 1500 x 400 x 1800 mm approx.  
(59.05 x 15.74 x 70.86 inches approx.)

-Weight: 80 Kg approx.  
(176 pounds approx.)

**AEL-WTNT/ICAI. Interactive Computer Aided Instruction Software System:**

With no physical connection between unit and computer (PC), this complete software package consists of an Instructor Software (EDIBON Classroom Manager -ECM-SOF) totally integrated with the Student Software (EDIBON Student Labsoft -ESL-SOF). Both are interconnected so that the teacher knows at any moment what is the theoretical and practical knowledge of the students.

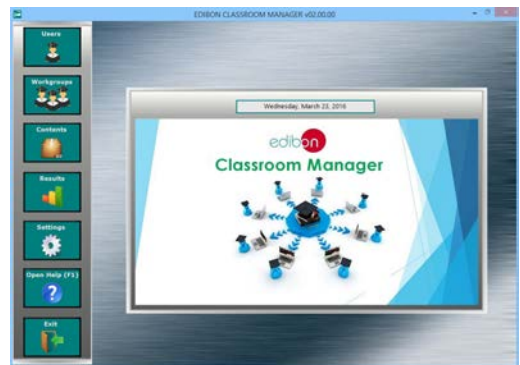

Instructor Software

**- ECM-SOF. EDIBON Classroom Manager (Instructor Software).**

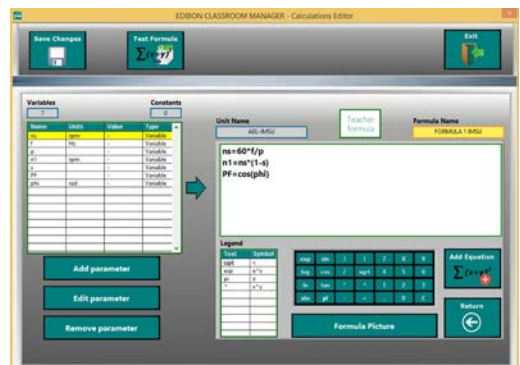

ECM-SOF is the application that allows the Instructor to register students, manage and assign tasks for workgroups, create own content to carry out Practical Exercises, choose one of the evaluation methods to check the Student knowledge and monitor the progression related to the planned tasks for individual students, workgroups, units, etc... so the teacher can know in real time the level of understanding of any student in the classroom.

Innovative features:

- User Data Base Management.
- Administration and assignment of Workgroup, Task and Training sessions.
- Creation and Integration of Practical Exercises and Multimedia Resources.
- Custom Design of Evaluation Methods.
- Creation and assignment of Formulas & Equations.
- Equation System Solver Engine.
- Updatable Contents.
- Report generation, User Progression Monitoring and Statistics.

ECM-SOF. EDIBON Classroom Manager (Instructor Software) Application Main Screen

ECAL. EDIBON Calculations Program Package - Formula Editor Screen

ETTE. EDIBON Training Test & Exam Program Package - Main Screen with Numeric Result Question

ERS. EDIBON Results & Statistics Program Package - Student Scores Histogram

Optional  
Student Software

- ESL-SOF. EDIBON Student Labsoft (Student Software).

ESL-SOF is the application addressed to the Students that helps them to understand theoretical concepts by means of practical exercises and to prove their knowledge and progression by performing tests and calculations in addition to Multimedia Resources. Default planned tasks and an Open workgroup are provided by EDIBON to allow the students start working from the first session. Reports and statistics are available to know their progression at any time, as well as explanations for every exercise to reinforce the theoretically acquired technical knowledge.

Innovative features:

- Student Log-In & Self-Registration.
- Existing Tasks checking & Monitoring.
- Default contents & scheduled tasks available to be used from the first session.
- Practical Exercises accomplishment by following the Manual provided by EDIBON.
- Evaluation Methods to prove your knowledge and progression.
- Test self-correction.
- Calculations computing and plotting.
- Equation System Solver Engine.
- User Monitoring Learning & Printable Reports.
- Multimedia-Supported auxiliary resources.
